

The Barley Bud festival is more than your average trip to Cloud9.

Not only will you discover a large variety of vendors with smoking accessories and other products that will trigger your blood vessels.

You'll also stumble upon useful information on recreational marijuana laws and a laundry list of medicinal uses for patients. And let's not forget the barley side of this event. Crafted beer is the perfect blend to your choice

There's so much to see and do here, so put the munchies aside and go exploring!
